Micro-Coax Names Brent C. Smith to Technical Director

Pottstown, PA - August 14, 2006: Micro-Coax announced that they have appointed Brent C. Smith to the position of Technical Director for Test, Measurement and Bulk Cable Products. Smith will be responsible on a worldwide basis for developing marketing strategies to expand Micro-Coax' presence into the Test and Measurement arena, and to continue to support and strengthen the more traditional Semi-Rigid Coaxial Cable line. In his new role, Smith also joins the Management team at Micro-Coax.

Smith joined Micro-Coax in 2003 as an Applications Engineer, and he has spent the last two years targeting large defense accounts in the West, South-West, and South-Eastern United States, as well as Asia Pacific. Smith brings more than two decades of broad engineering and marketing experience in the microwave industry to his new role in Micro-Coax. Prior to joining Micro-Coax, he held positions with Heraeus, Dielectric Labs, and Tucsonix.

About Micro-Coax:

Micro-Coax is a leading provider of transmission line solutions for radio frequency (RF) and microwave applications. Serving the defense, satellite, telecommunications, test and measurement markets for more than forty years, Micro-Coax has earned a reputation for mission performance and excellent customer service. A broad technology base allows Micro-Coax to quickly respond to customer needs with optimized solutions of coaxial cables, connectors, harness assemblies and conductive fibers.
