**Micro-Coax Presented With Supplier of the Year Award By Calmont
Wire and Cable Company**

Pottstown, PA - December 4, 2009: Micro-Coax has proudly accepted the Supplier of the Year Award from Calmont Wire and Cable Company.

Located in Santa Ana, CA, Calmont Wire and Cable has been providing custom wire and cable solutions for critical applications since 1958. As technology has changed and new markets emerged, Calmont has kept pace. Today they are still the first choice in custom cable design and manufacture for aerospace, military, medical, robotics and other demanding markets.

This award was based on Micro-Coax's proven dedication to maintaining superior levels of on-time delivery and quality. Micro-Coax is honored to receive such a distinguished award.

(l. to r.) Bill Gaffney (Director of Sales/Marketing, Micro-Coax); David Vandegriff (Supply Chain Manager, Calmont Wire and Cable); Jonni Salamone (Sales Operations Manager, Micro-Coax); Heather Eczko (Sales Representative, Micro-Coax); Christopher Kneizys (President, Micro-Coax)

About Micro-Coax:

Micro-Coax is a leading provider of transmission line solutions for radio frequency (RF) and microwave applications. Serving the defense, satellite, telecommunications, test and measurement markets for more than forty years, Micro-Coax has earned a reputation for mission performance and excellent customer service. A broad technology base allows Micro-Coax to quickly respond to customer needs with optimized solutions of coaxial cables, connectors, harness assemblies and conductive fibers.
