Micro-Coax Appoints EOX Sales As Mid-Atlantic and Southeast US Representative

Pottstown, PA - March 28, 2008: Micro-Coax is pleased to announce the appointment of EOX Sales as representatives in the Mid-Atlantic and Southeast United States areas. EOX is dedicated to bringing quality, state of the art, and high-technology products to the Mid-Atlantic and Southeast US regions.

EOX has demonstrated superior product knowledge in technical competence as well as market expertise. With their belief in a relationship/sell philosophy enhanced by technical competence and customer service, EOX Sales will be a valuable addition to the Micro-Coax team.

About Micro-Coax:

Micro-Coax is a leading provider of transmission line solutions for radio frequency (RF) and microwave applications. Serving the defense, satellite, telecommunications, test and measurement markets for more than forty years, Micro-Coax has earned a reputation for mission performance and excellent customer service. A broad technology base allows Micro-Coax to quickly respond to customer needs with optimized solutions of coaxial cables, connectors, harness assemblies and conductive fibers.
