FOR IMMEDIATE RELEASE

Micro-Coax Announces Compliance to REACH Directives

Pottstown, PA - July 31, 2009: Micro-Coax has determined that, to the best of our knowledge, there are no listed REACH Substances of Very High Concern (SVHC) intentionally added to our products.

Micro-Coax has also determined, through review of suppliers' Material Safety Data Sheets (MSDS), that to the best of our knowledge our suppliers' products do not contain intentionally added listed REACH SVHC.

Our products are designed to be free from substances already banned and those proposed to be banned in the near future.

For more information, please contact the Micro-Coax Environmental Health and Safety Office at 610-495-4240.

About Micro-Coax:

Micro-Coax is a leading provider of transmission line solutions for radio frequency (RF) and micro-wave applications. Serving the defense, satellite, telecommunications, test and measurement markets for more than forty years, Micro-Coax has earned a reputation for mission performance and excellent customer service. A broad technology base allows Micro-Coax to quickly respond to customer needs with optimized solutions of coaxial cables, connectors, harness assemblies and conductive fibers.
