**Micro-Coax appoints Northern Technical Sales as Upstate New York
Sales Representatives**

Pottstown, PA - August 19, 2008: Micro-Coax is pleased to announce the appointment of Northern Technical Sales as sales representative in the Upstate New York territory.

Northern Technical Sales has been providing solutions for demanding Test and Measurement applications since 1988. This strategic move allows Micro-Coax to continue expansion into the North Eastern U.S. market.

About Micro-Coax:

Micro-Coax is a leading provider of transmission line solutions for radio frequency (RF) and microwave applications. Serving the defense, satellite, telecommunications, test and measurement markets for more than forty years, Micro-Coax has earned a reputation for mission performance and excellent customer service. A broad technology base allows Micro-Coax to quickly respond to customer needs with optimized solutions of coaxial cables, connectors, harness assemblies and conductive fibers.
