Micro-Coax Appoints Synergistic Technologies As Pacific Northwest Representative

Pottstown, PA - March 8, 2011: Micro-Coax is pleased to announce the appointment of Synergistic Technologies, Syntek, as the representative in the Pacific Northwest territory. Founded in 1986, Syntek is a support driven sales organization that represents various companies involved with electronic measurement, manufacturing, test instrumentation, calibration, and semiconductors. Syntek is the frontline resource for all of their customers from engineers to buyers.

Syntek represents professional providers of leading brands of electronic equipment, instrumentation, and quality assurance. Coupled with the high quality and high reliability of Micro-Coax products, Syntek will be a valuable addition to the Micro-Coax team.
