Micro-Coax announces the appointment of Syratron Marketing to the India market

Pottstown, PA - April 9, 2010: Micro-Coax is pleased to announce the appointment of Syratron Marketing for the India market.

Syratron Marketing is India's premier hi-tech electronics Sales Representative Company. Established in 1984 in the Indian Electronics market, Syratron follows a proactive, futuristic and process driven approach to business generation that anticipates customer's needs.

Syratron offers Indian customers an avenue to explore, identify and source high quality, cutting edge technologies and products from different parts of the world for development and production programs.

About Micro-Coax:

Micro-Coax is a leading provider of transmission line solutions for radio frequency (RF) and microwave applications. Serving the defense, satellite, telecommunications, test and measurement markets for more than forty years, Micro-Coax has earned a reputation for mission performance and excellent customer service. A broad technology base allows Micro-Coax to quickly respond to customer needs with optimized solutions of coaxial cables, connectors, harness assemblies and conductive fibers.
